Subject: FW: EFED Management Meeting notes

Hi,

Below is a brief summary of the results of the EFED Management meeting. Please let me know if you have any questions.

Thanks Josh for participating in the second half of the meeting for me.

Jean

- Chlorpyrifos is supposed to go out today, assessment is signed.
- 28th Aquatic Benchmark update is supposed to go live
- Structural fumigants end of Oct.
- Brian and Jan meeting with CLA this afternoon. They want an ESA update. They want to know if we are having another technical input. How are we incorporating use and usage information. Jim will discuss their comments on carbaryl. If there is anything significant they will let us know.
- SFRIREG is this week. Very few things significant for EFEDs, Justin to go to a session on pollinators, Amy a session on devices, Mark a closed session on Dicamba. Is there anything that we would like to ask the states.
- A lot of discussion of reorganization that will be happening in about one week.

- Mark's report on the environmental workshop starting Oct. 6th. A large number of indicators that EPA does, a small number related to pesticides. Dealing with surface water and ground water monitoring indicators and benchmarks (although several names were mentioned only two can go (Jess and Ethan were selected)
- ERB 2 Aldicarb tomorrow, talking about due dates with BEAD
- Jan mentioned asking staff about what kind of celebrations we want to have for all of the recent triumphs
- Kris is presenting on colony level modeling to management to see if it can be helpful to PRD
- Lee is finishing new scenario memo and checking to see if it can be pushed or if people have to submit tickets for it.
- Tom and Ryan M reviewed paper to be published on aquatic modeling that ORD drafted
-
